DETAILED ACTION

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

1. Claims 1-4, 10 and 11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Fogarty et al (5979452) in view of Laird (6276661) and Merry et al. (4929235).
2. Fogarty et al. disclose an access port for introducing an endoscope device, as claimed and suggest that any type of seal means may be incorporated with the access port. Laird discloses a fluid seal being used with an access port for introducing an endoscopic device. Merry et al. disclose a fluid seal and an auxiliary fluid seal. It would have been obvious to one having ordinary skill in the art at the time the invention was made to include the fluid seal as disclosed by Laird or Merry et al. into the Fogarty et al.'s access port in order to provide a fluid tight seal about the endoscopic device within the access port. The balloon of the Fogarty device expands laterally and axially about the body. The body is element 44 and the balloon is near (or about) the body. Though 'about' can mean surrounding on all sides, *a tire is about a wheel*, 'about' can also mean "in the vicinity of; around: *explored the rivers and streams about the estate.*" (www.dictionary.com). The modified Fogarty reference anticipates the latter usage. The balloon forms a fluid filling sealing engagement with the tissue about the incision.

Allowable Subject Matter

3. Claims 5-9 and 12-16 are allowed. The following is an examiner's statement of reasons for allowance: for claims 5-9, please see office action mailed 11/22/02. For claims 12-16, the

Art Unit: 3731

prior art does not anticipate the flange of claim 12 being configured so that is integrally formed on the proximal end of the cylinder and overlays the proximal end of the body. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hahnen 20010023332 discloses a surgical port containing a similar structure to the device of claim 1.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
